

In-store solution for the future

Construction for the future

We create. We think. For you.

Bakof group - Boint

Our company excels in handling projects „from A to Z.“

We offer a comprehensive suite of services including:

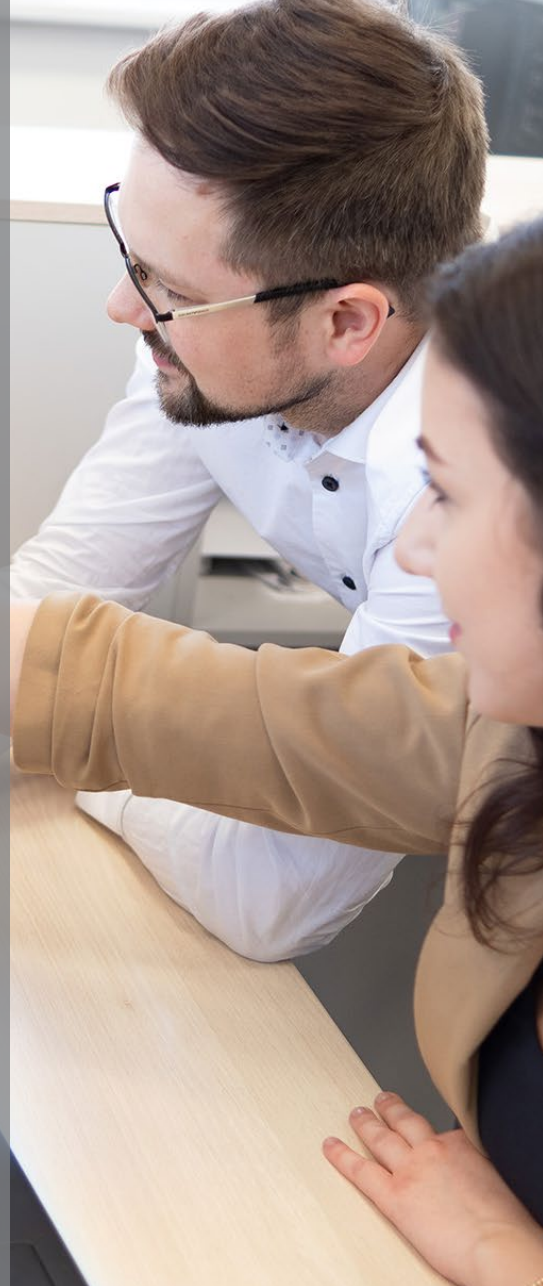

- Design
- Measurement Works
- 3D Visualization
- Construction Drawings
- Sampling
- Material Recommendations
- Architectural Solutions
- Building Construction
- Dry Construction
- Furniture Production
- Assembly & Installation
- Post-installation servicing

We handle the design and complete implementation of retail & commercial premises, custom-fitting everything from shops and car showrooms to offices, banks, and hotels.

Our goal is to build long-term relationships with our clients.

Interestingly, we began with the Swiss and German markets, adopting customs from Western Europe. As a result, clients who start working with us tend to stay with us and we often become their exclusive suppliers.

We are a Brno-based company proudly founded by locals. Our team comprises skilled people from Brno and nearby areas, and most of our subcontractors are local companies.

12 years
on CZ / EU market

20 000 000 €
turnover last year
