After us

A 3D architectural rendering of a modern office interior. The space features a grey wall with a large, red, 3D 'e.on' logo. On the left, a white reception desk with red sides has a tablet on top and a sign that reads 'Přejděte na Zelenou od E.ONu' and 'e-on'. A water dispenser and a small model of a city with a wind turbine are also on the desk. A long, red, modular sofa is on the right. In the center, there are two white circular tables with red cylindrical stools, each holding a glass vase with green plants. A white slatted partition with a black TV screen is in the background. A glass-walled meeting room is visible on the right. The floor is light grey, and the ceiling has recessed lights.

Assembly

The image shows a bright, modern interior space, likely a customer service center or a community hub. On the left, there is a long, low-profile red leather sofa with two matching red cushions. Behind the sofa is a large window with a red frame. In the center, there are two white circular tables on thin white stands, each with a red cylindrical ottoman underneath. A small vase with dried flowers sits on one of the tables. In the background, there is a large arched wooden door with glass panels, leading outside. To the right, a long white counter with a teal top edge runs along the wall. On the counter, there are various items: a tablet on a stand, a white radiator, and several colorful, stylized cutouts of energy-related objects like wind turbines, solar panels, and a car. A large, leafy green plant hangs from the ceiling on the right side. The floor is a light gray concrete. The overall atmosphere is clean, bright, and modern.
